PINPOINT TEST DA: INTAKE AIR TEMPERATURE (IAT) SENSOR

Intake Air Temperature (IAT) Sensor

DA

This pinpoint test is intended to diagnose the following:

- integrated mass air flow/intake air temperature (MAF/IAT) sensor (12B579)
- harness circuits: IAT and SIGRTN
- powertrain control module (PCM) (12A650)

Voltage values calculated for VREF equal 5 volts. These values can vary by 15% due to sensor and VREF variations.
